

# Overview of On-Line for Classes

AYSO offers several classes through the internet. The on-line courses carry equal qualification as a class attended in person. The classes are offered for free and completion of some classes are required by AYSO.

On-line classes can be found at:

[www.aysotraining.org](http://www.aysotraining.org) or  
[www.aysotraining.com](http://www.aysotraining.com)

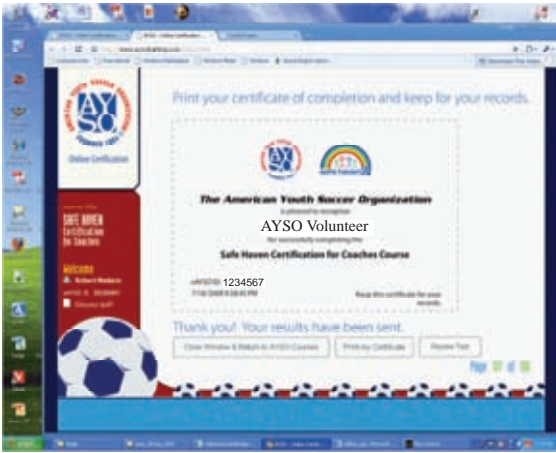

Being pre-registered with [eayso.org](http://eayso.org) you will have an ID number that can be used for the on-line classes. Click on the "I Have an AYSO ID" on the initial screen. You will be presented with a list of available classes.

Click on the name of the class you are interested in taking.

The next screen will ask for your AYSO ID and last name. Enter the information.

When you have successfully completed a course you can print a copy of the certification. It is recommended that you do print and keep a copy just in case your class does not show up in the data base.
